# GUIDELINES FOR THE CONSERVATION AND CHARACTERISATION OF PLANT, ANIMAL AND MICROBIAL GENETIC RESOURCES FOR FOOD AND AGRICULTURE

## NATIONAL PLAN FOR AGRICULTURAL BIODIVERSITY

### EXECUTIVE SUMMARY

# Atlante delle razze autoctone

Bovini, Equini, Ovicaprini, Suini allevati in Italia

**Daniele Bigi e Alessio Zanon**

# The needs of RARE

More:

- Time, volunteers, active members
- Skill in communication
- Partnership with other NGOs (Italian or European) or Universities (Italian or European) for projects
- Information from SAVE project office on European projects

Less:

- endangered breeds

# The needs from SAVE network office

- More information about European projects, funding, legislation.
- More connection with other organizations, institutions, associations, universities. E.g. the annual meeting could be not only restricted to SAVE members, but open to other organization (open call)
